

## Rules and Regulations:

- Open to **Junior College (Grades 11–12)** and **Undergraduate (UG)** students.
- Participants may compete **individually or in teams** (maximum **3 members per team**).
- Each participant/team may submit **only one model**.
- The model must be based on the **given theme** (e.g., Science & Technology, Sustainable Development, Engineering Innovations, Smart Cities, Environmental Conservation, Healthcare, etc.).
- Models should clearly demonstrate **concept, creativity, and application** related to the theme.
- Commercially available models are **not allowed**.
- Models may be **working** or **non-working**. (Working Models will be preferred.)
- Maximum model size: **60 cm × 60 cm × 60 cm** (can be modified).
- Models should be **safe, stable, and portable**.
- Use of **eco-friendly and low-cost materials** is encouraged.
- Electrical components (if any) must be **low voltage and properly insulated**.
- Requirement of electric supply should be communicated prior.
- Presentation time: **3–5 minutes**
- Question & Answer: **2–3 minutes**
- Judges' decisions will be **final and binding**.
- Participants are responsible for their own materials and equipment.
- Organizers are not responsible for damage or loss of models.
- The organizing committee reserves the right to modify rules if necessary.
