

MANUAL FOR PREPARATION OF Ph.D. SYNOPSIS

(Prescribed Format and Specification)

1. GENERAL:

The synopsis is to be considered as a detailed summary of the work with important results highlighting the original contributions in the thesis to be submitted. It should give an outline of the thesis. The review of earlier work is to be minimized with just enough to highlight the contributions in the research work to be reported in the thesis. It is expected that at the time of submission of the synopsis no work is yet to be completed except writing the thesis and all other academic requirements such as course work, comprehensive examinations and the suggestions and directions given by members of the Doctoral Committee have been fulfilled.

The primary objective of the synopsis is to enable the reader to judge whether a prima facie case exists for accepting the proposed Ph.D. thesis for the award of the Ph.D. degree. The synopsis should therefore, list, clearly, the contributions resulting from the investigations carried out by the candidate, which have led to advancement of knowledge in the field of investigation.

In order to fully appropriate the candidate's contribution, it is necessary to put it in a proper context. It is, therefore, recommended that the synopsis should contain a brief account of the existing knowledge and the inadequacy or gap in this knowledge that led the candidate to the formulation of the problem of his / her investigation. A few references, needed in this respect should be included but their number should normally, not exceed ten.

2. NUMBER OF COPIES TO BE SUBMITTED:

Three hard copies and one soft copy (pdf file) in a properly labeled USB are to be submitted to the University.

3. SIZE OF SYNOPSIS:

The size of synopsis should be maximum 15 pages, A4 size good quality white paper preferably not lower than 80 GSM.

4. LAYOUT OF SYNOPSIS:

1. Title page
1. Introduction
 - 1.1 Motivation
 - 1.2 Brief Summary of Earlier Work
 - 1.3 Research Objective
2. Research Methodology for Data Collection and Extraction
 - 2.1
 - 2.2

3. Research Objectives
 - 3.1 Objective I (Detailed Description)
 - 3.2 Objective II (Detailed Description)
 - 3.3 Objective III (Detailed Description)
 - 3.4 Objective IV (Detailed Description)
4. Summary and Conclusions
 - 4.1 Findings from Objective I
 - 4.2 Findings from Objective II
 - 4.3 Findings from Objective III
 - 4.3 Findings from Objective IV
 - 4.5 Contributions of the Study
 - 4.6 Practical Implications
 - 4.7 Study Limitations and Scope for Future Research
5. Organization of Thesis
