Ph.D. Research Proposal

1. Title of the Research Proposal :

Name of the Research Scholar :

PRN:

Department :

Faculty:

Name of the Supervisor/s

Date of Submission:

2. Introduction / Background of the Study:

- Context of the research problem
- Importance of the topic
- Current scenario in the selected domain
- Brief overview of the research area

3. Literature Review

- Summary of key research papers/books
- Identification of research gaps
- Critical analysis (not just description)

4. Problem Statement

- Clear and concise definition of the problem
- Gap in existing research
- Justification of the problem

5. Research Questions / Hypothesis

- Research questions OR
- Hypotheses (if applicable)

6. Objectives of the Study

- Main objective (broad goal)
- Specific objectives (3–5 measurable points)

7. Research Methodology

- Type of research (Experimental / Analytical / Descriptive / Simulation-based)
- Research design
- Materials / Tools / Software

Registrar
Sanjay Ghodawat University
Kolhapur

- Data collection methods
 - Sampling (if applicable)
 - Experimental setup (if applicable)
 - Variables and parameters
 - Method of analysis
8. **Scope of the Study**
- Boundaries of the research
 - What is included and excluded
9. **Expected Outcomes**
- Anticipated results
 - Contribution to knowledge / industry
 - Practical applications
10. **Work Plan / Timeline**
(Preferably in table or Gantt chart format)
- | Phase | Activity | Duration |
|---------|-------------------------|----------|
| Phase 1 | Literature Review | 3 months |
| Phase 2 | Methodology Development | 3 months |
| Phase 3 | Experimentation | 6 months |
| Phase 4 | Analysis | 3 months |
| Phase 5 | Thesis Writing | 6 months |
11. **Originality and Novelty**
- What is new in your research?
 - Innovation or unique contribution
12. **References / Bibliography**
- Use standard format (APA / IEEE / MLA)
 - Minimum 15–30 recent references (last 5–10 years preferred)
